*The Game of All Time* is probably the best game you'll ever play.

Featuring sprawling forests and immaculate underground caverns, you're in for the adventure of a life-time. Sate your blood-lust and get your hoppies in.

But hey, even if it sounds simple, there are some things you need to know. As a wise old man once said, "It's dangerous to go alone, take this."

## **Enemies:**

They seem to sense your presence—don't get too close, or they will turn around and chase you. They are hostile, and will attack without provocation. If they touch you, you will lose some health.

**Rat:**

- It follows you around on the ground, trying to consume your ankles. Use your sword to prevent these dastardly rodents from gnawing on your toes.

**Bat:**

- This creature flies high in the sky, often in caves. It prefers to keep above the ground so that it can eat your heart. It may not look it, but this creature is not to be messed with.

**Score:**

Brave adventurer, allow us to reward you for your avarice and bravery. There are a few different things you can do to increase your score.

**Gems:**

- Red gems are worth 10 points.
- Green gems are worth 20 points.

**Killing Enemies:**

- Enemies are worth 30 points.

### **Death:**

- Dying to an enemy will cause a 50 point loss.

### **Clear Conditions:**

Some levels may have things you're required to do before moving on. We encourage you to do some experimenting and read the tips on signs, but we have also outlined those conditions here, for the adventurer who prefers a more book-smart approach.

### **Level\_One:**

You have to find a key to progress. Look for clues in the environment!

### **Level\_Four:**

You have to kill every enemy to progress. If you try to exit without doing so, the world will just put you back at the start after taking your life-force.
